9-10 May & **11-12 July 2025**

Advanced Horizontal, Vertical Bone and Soft Tissue Regeneration.

Learn the latest regeneration techniques from the renowned Dr Balaji.

4 Day Course

£3600 +VAT

with £500 Non-refundable deposit

MEGAGEN

Objectives

- Understand the biology and type of defect
- Understand the anatomy of the surgical area
- Understand the biology and use of biomaterials
- Learn the surgical principles of both horizontal and vertical bone augmentation
- Learn surgical principles of soft tissue reconstruction to increase keratinised tissue around implants and newly generated bone

Information

When

9 - 10 May & 11 –12 July 2025

Where

Sheraton Skyline Hotel
London Heathrow, Bath Rd,
Harlington, Hayes, UB3 5BP

Price

Four Day Course: £3600 +VAT

£500 non-refundable deposit required.

Day 1

- Patient selection, biology, types of defects and biomaterials
- Implant placement in the aesthetic zone - intact socket and socket defect
- Soft tissue handling, anterior aesthetic zone, horizontal augmentation cheese burger technique
- Hands-on: flap design, horizontal augmentation with bio-gide, CTG harvesting and suturing (classical graft), periosteo – elastic technique

Day 2

- Applied anatomy anterior maxilla
- Sausage technique anterior maxilla
- Sausage technique posterior maxilla
- Soft tissue, suturing technique
- Complications
- Hands-on: flap design, horizontal augmentation, periosteal suturing technique, CTG harvesting & suturing (Zucchelli Technique), plastic model training

Day 3

- Vertical augmentation – anterior maxilla
- Consent and applied anatomy – mandible
- Vertical augmentation – posterior maxilla
- Soft tissue – part 2
- Hands-on: flap design, vertical augmentation PTFE membrane, CTG harvesting and fixing, periosteo – elastic technique, perioplasty, orbicularis muscle extention and suturing
- Case presentation from delegates and discussion

Day 4

- Vertical augmentation – posterior mandible
- Sausage technique mandible
- Vertical augmentation – anterior mandible
- Flap design in the maxilla and mandible with models
- Complications
- Test questions
- Hands-on – soft tissue: coronally repositioned flap, strip graft, mucograft, and FGG
- Case presentation from delegates and discussion

4 Day Course
£3600 +VAT
with £500 Non-refundable deposit
